CASE STUDY

ABACUS
FINANCIAL SERVICES • EST. 1974

INDUSTRY
- FINANCE

CONTRACTED SERVICES
- PREMIUM BUSINESS FIBRE

Abacus is an independent and privately owned company who are leaders in the provision of professional services in Gibraltar, dedicated to providing private and corporate clients with a broad range of financial services and products.

Abacus can trace its origins to the early 1970s, as part of a leading UK accountancy firm which ultimately developed into one of the top four global financial advisory firms, with Abacus as a member in its own right. Now, operating as a fully independent firm, they remain committed to the high standards instilled by our heritage.

"We initially installed GIBFIBRE's connection as a secondary link but it is now an integral part of our infrastructure. Feedback from our user base has been resoundingly positive. As a high end financial services provider reliability is key.

They have been extremely fast at responding to new queries, support issues and implementing new features and when required the installation has been performed ahead of expectations."
